ALUMNI PROFILE

Dane DeGrace '17

AS: BUSINESS ADMINISTRATION | SARANAC LAKE, NY
U.S ARMY, SPECIALIST E-4 | PURPLE HEART RECIPIENT

When I got out of the army I knew that I wanted to go back to school. North Country Community College gave me the opportunity. They gave me a new start, a fresh chance.

I knew what to expect going in the second time. Plus, I had real world experiences that made my studies much easier. I thrived at North Country. I finished with a 3.99 GPA and graduated in the spring of 2017.

I continued my education at Paul Smith's College, enrolling in the Entrepreneurial Business Studies program. An articulation agreement between the two local schools made the transition seamless. Everything that I took at North Country plugged directly into the curriculum at Paul Smith's.

I'm currently the business manager for Bionique Testing Laboratories,

where I'm putting to use the accounting, human resources, networking and other business skills I learned at both colleges.

I've taken on a lot of new challenges and responsibilities, and it's all been possible because of my educational background.

Bruce ROWE

ENGLISH INSTRUCTOR
HUMANITIES DEPARTMENT CHAIR

OF OVER 700 CURRENT AND PAST STUDENTS SURVEYED, INSTRUCTORS AT NCCC WERE RATED THE COLLEGE'S GREATEST STRENGTH, AND THE NUMBER 1 REASON TO GO TO NORTH COUNTRY.

Education:

Master's in English Language and Literature/Letters, Breadloaf School of English; Bachelor's in Political Science and Government, Hamilton College

Interests:

A life-long member of the Bruce Club (Monty Python reference), Bruce enjoys reading, writing, hiking, his family, music, gardening, baseball, travel, and just about anything else labeled an outdoor sport.

How long have you taught at North Country?

I started in 2009 as an adjunct instructor, then became full-time in 2014. Before I came to the college I

taught high school English. As an undergrad, I majored in government and thought I would be a journalist, but my love of literature and writing took over and I found myself with a graduate degree in English.

What are the benefits of pursuing a Liberal Arts degree?

You're not afraid of anything with a Liberal Arts degree. If something comes your way, you have the flexibility and stamina to see it through to its completion. You have the research skills, you have the communication skills, and you have a really broad experience that you can use in all kinds of careers.

A Liberal Arts degree is also great for the person who doesn't know what they want to do. I started out with no clue, but I knew that going to a liberal arts college would give me the background and foundation to be whatever I wanted to be.

Why should I consider NCCC?

I'd encourage people to come back to North Country, part-time or full-time, to increase their marketability, to gain a promotion, or maybe to finish that degree or credential they started long ago. Now we've made it more convenient and flexible for working adults through our online degree programs in Business Administration and Liberal Arts.

"MY EXPERIENCE AT NCCC HAS HELPED ME GROW AS AN INDIVIDUAL AND BECOME A MORE CONFIDENT PERSON."

SUNY

Alicia COOK '19

AAS: RADIOLOGIC TECHNOLOGY | CHATEAUGAY, NY

My experience at NCCC has helped me grow as an individual and become a more confident person. I couldn't have done it without the support and guidance of such inspirational professors and coaches.

Kent Egglefield and my assistant coaches gave me the opportunity

to play college soccer, and to become the all-time leading scorer for NCCC women's soccer.

Becky LaDue and Scott Stringer taught me how to become an exceptional X-Ray Tech student. They instilled in me all the knowledge that I will need to pursue a career in the radiology

field. Their belief in me was never-ending, and for that I will always be grateful that I attended NCCC.

My two years at North Country were an experience I will never forget. I have made memories and friendships that will last a lifetime.

CAMPUS LOCATIONS

This North Country campus is located in the heart of the Adirondacks, just miles from Lake Placid, Whiteface Mountain and so much more. Access our administrative offices, residence halls, flagship programs (including Criminal Justice and Nursing), and connect with other students at NCCC's student lounge and cafeteria, the Connector.
