TRANSFER SPOTLIGHT

Schulyer Cranker

Hometown: Saranac Lake

Year graduated: 2020

Degree: Liberal Arts & Science: Math and Science

Attended: Saranac Lake campus, plus online

Transferred to: University at Buffalo, Bachelor's Degree in Biotechnology, 2024

Current position: Quality Analyst, Bionique Testing Laboratories

Why did you decide to enroll at North Country?

NCCC was a close, affordable option that would not sacrifice the quality of my education. Additionally, it allowed me to have a more personal experience for the first two years of my higher education.

What was your experience like here as a student? How were the classes? How were the instructors?

I had a fabulous experience. The class sizes were a perfect balance of size, not too big or too small, and varied experiences from both the instructors and my peers. The instructors were all knowledgeable and eager to teach, and the unique setting of NCCC allowed them to provide a much more personal experience.

How did your education at North Country prepare you for what came after, and what you're doing now?

North Country, in addition to my diploma, provided me people skills for a higher education setting, the chance to learn from people of many different backgrounds, and the ability to remain organized with the new online component that is unanimous with most all courses nowadays.

Would you recommend North Country to someone? Why?

Absolutely. NCCC was hands down two of the best years of my education. They were able to provide me a quality education, at an affordable price, in a smaller more personable setting, all while surrounded by people of varying backgrounds and experiences.

Dane DeGrace '17

AS: BUSINESS ADMINISTRATION | SARANAC LAKE, NY
U.S ARMY, SPECIALIST E-4 | PURPLE HEART RECIPIENT

When I got out of the Army I knew that I wanted to go back to school. North Country Community College gave me the opportunity. They gave me a new start, a fresh chance.

I knew what to expect going in the second time. Plus, I had real world experiences that made my studies much easier. I thrived at North Country. I finished with a 3.99 GPA and graduated in the spring of 2017.

I continued my education at Paul Smith's College, enrolling in the Entrepreneurial Business Studies program. An articulation agreement between the two local schools made the transition seamless. Everything that I took at North Country plugged directly into the curriculum at Paul Smith's.

I worked as the business manager for Bionique Testing Laboratories

and am currently a fiscal assistant and IT specialist with North Country Home Services.

I've taken on a lot of new challenges and responsibilities, and it's all been possible because of my educational background.

"MY EXPERIENCE AT NCCC HAS HELPED ME GROW AS AN INDIVIDUAL AND BECOME A MORE CONFIDENT PERSON."

SUNY Alicia COOK '19

AAS: RADIOLOGIC TECHNOLOGY | CHATEAUGAY, NY

My experience at NCCC has helped me grow as an individual and become a more confident person. I couldn't have done it without the support and guidance of such inspirational professors and coaches.

Kent Egglefield and my assistant coaches gave me the opportunity

to play college soccer, and to become the all-time leading scorer for NCCC women's soccer.

Becky LaDue and Scott Stringer taught me how to become an exceptional X-Ray Tech student. They instilled in me all the knowledge that I will need to pursue a career in the radiology

field. Their belief in me was never-ending, and for that I will always be grateful that I attended NCCC.

My two years at North Country were an experience I will never forget. I have made memories and friendships that will last a lifetime.
