

ACADEMIC FORGIVENESS

The Academic Forgiveness Policy allows readmitted students who previously accrued a record with a substantial number of grades below a “C” to be ‘forgiven’ for their earlier performance if they meet the following requirements:

- The student must have been separated from the College for a minimum of three (3) academic years.
- The student must have applied and been re-admitted to the College
- The student must not have completed more than 50% of their desired degree program. If Academic Forgiveness is given, all previous work will be treated as transfer work, thus the student may not transfer in excess 50% of a degree program.
- The student must submit a written petition to the Registrar’s Office within the first semester of returning to NCCC as a matriculated student (electronic communication will not be accepted).

Petitions should be sent to:

Registrar’s Office
